SUMMARY

Full Stack Developer at Exception Júnior, previously a Development Intern at Compass UOL. Bachelor's student in Information Systems at the Federal University of Southern and Southeastern Pará (Unifesspa), expected to graduate in January 2027. Hands-on experience with HTML, CSS, JavaScript, TypeScript, Java, Go, Next.js, Node.js and Tailwind CSS. I build personal projects in Flutter, Rust and Godot, and hold certifications in back-end development with Spring Boot, cloud (AWS) and Swift.

EDUCATION

Bachelor's Degree in Information Systems — Expected: Jan 2027
Federal University of Southern and Southeastern Pará (Unifesspa)

EXPERIENCE

Full Stack Developer · Exception Júnior — Jul 2024 – Present
Part-time · Marabá, PA, Brazil (remote)

- Full stack application development with HTML, CSS, JavaScript, TypeScript, Java and Go, building interfaces and services in Next.js, Node.js and Tailwind CSS.
- Back-end of Conecta Canaã, a web platform with an authenticated area for the Smart City project of Canaã dos Carajás (PA).
- Front-end of the PPMAC website (Next.js, Tailwind CSS), the Observatory of Public Policies for Climate Mitigation and Adaptation in the Amazon (Unifesspa), with news, publications, an articles column and field research. ppmac.com.br

Development Intern · Compass UOL — May 2024 – Oct 2024
Internship · São Paulo, SP, Brazil (remote)

- Scholarship Program: Back-end Development (Spring Boot) for Commerce on AWS track, 400 hours, completed successfully.
- Gen AI Technical Certification and AI-Assisted Certified Professional.

Office Assistant (Apprentice) · Grupo FASA — May 2023 – May 2024
São Domingos do Araguaia, PA, Brazil

- Supported administrative and office activities and document management, building organization, task management and communication skills.

PROJECTS

AtestaVet — veterinary certificates and reports — Sep 2026
Flutter · Dart · Supabase · Cloudflare Pages

- App for veterinarians to fill in and generate, as PDFs, the standardized documents of the brucellosis and tuberculosis program (PNCEBT): exam certificate, vaccination certificate and monthly report.
- Works in the browser and offline, installable on phone or computer; accounts and cloud sync with Supabase. Built solo.
- Multi-step form that reuses saved clients and properties and automatically calculates the tuberculin test result according to the regulation; Premium plan with Pix payments. atestavet.com.br

Slice — video editor in Rust

Oct 2026 – Present

Rust · egui · FFmpeg · GitHub Actions

- Desktop video editor in the style of DaVinci Resolve: Media Pool, multi-track video and audio timeline, keyframes, Inspector, waveform and MP4 export (H.264 + AAC).
- Own project format with autosave and recovery, rearrangeable panels and editable shortcuts. Windows and macOS packages built with GitHub Actions. Part of the Slate suite, built solo, with 140+ automated tests.

Echo — voice recorder and editor in Rust

Oct 2026 – Present

Rust · egui · FFmpeg · Whisper

- Desktop voice recorder and editor in the style of Audacity: mono or stereo recording with overdub, clip-based editing and volume envelope.
- Dozens of effects (voice enhancement, noise reduction, equalizer, compressor, de-esser), transcript-based editing and teleprompter; exports with loudness adjusted for YouTube. Part of the Slate suite.

Dead Hand — Blackjack game on Steam

Nov 2025 – Jan 2026

Godot · GDScript

- Retro-style Blackjack game with three opponents and real-time online PvP, released on Steam on Jan 22, 2026, with an interface in six languages. Built solo. Steam page

Scholarship holder and instructor — Computer Assembly and Maintenance

Dec 2024 – Aug 2025

Unifesspa · Minimizing Environmental Impact in the Digital Era · 960 hours

- Scholarship holder and instructor of the extension project, training more than 30 students in computer assembly, maintenance and responsible disposal of equipment.

COMPLEMENTARY ACTIVITIES

Organization of the 1st Calculus Week

Dec 2023

Faculty of Information Systems · Unifesspa · 20 hours

- Event promotion, creation of flyers, banners and videos, and creation and delivery of short courses.

CERTIFICATIONS

- **Back-end Development (Spring Boot) for Commerce on AWS**, 400h — Compass UOL (Oct 2024)
- **Gen AI Technical Certification** and **AI-Assisted Certified Professional** — Compass UOL (May 2024)
- **Algorithms and Object-Oriented Programming with Swift**, 50h — Eldorado Research Institute (Dec 2023)
- **Cloud Services Practices with Swift and Cognitive Services**, 100h — Eldorado Research Institute (Feb 2024)
- **AWS Cloud Computing for Beginners**, 3h — Udemy (Oct 2024)
- **Virtual Servers with EC2**, 3h; **Amazon S3, CloudFront and Snowball**, 4.5h — Udemy (Oct 2024)
- **UML Data Modeling**, 13h — Udemy (Oct 2024)
- **Agile Methodologies (XP, Scrum, Lean and Kanban)**, 4h; **Cyber Security**, 5h — Udemy (May 2024)
- **Go Fundamentals** and **Advanced Go Concepts** — Rocketseat (Sep 2025)
- **GitHub, GitLab and GitPages: An Introductory Approach**, 4.5h — Unifesspa (May 2024)
- **Software registration** SOSQueimadas — Marabá — INPI, process BR512024003985-6 (2024)

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Java, Go, Rust, Dart, Swift, GDScript, Python, SQL
Frameworks and tools: Next.js, Node.js, Tailwind CSS, Spring Boot, Flutter, egui, FFmpeg, Supabase, Godot, Git, GitHub, GitLab
Cloud and infrastructure: AWS (EC2, S3, CloudFront), network administration, computer assembly and maintenance, information security
Practices: Object-oriented programming, UML, agile methodologies (Scrum, Kanban, XP)
Soft skills: Teamwork, communication, problem solving, proactivity and adaptability
Languages spoken: Portuguese (native), English (advanced)
